Material

All metal parts are made of stainless steel 304. Floors, walls and climbing walls have a 'wooden' base and the whole is covered with a durable plastic coating. Wall and roof panels are an outdoor quality colored HPL laminate. Connections consist of stainless steel and, where necessary, covered with a plastic cap. The nets and ropes are made from 16 mm vandal proof Hercules rope.

Anchorage

The posts go to a depth of 50 cm in the ground and at the bottom a steel plate to increase the support. Concrete is not required.

Comments

If the soil does not contribute to the stability it may be necessary to add concrete.
