Material

The posts are made of a FSC hardwood with a durability class of 1-2 according to EN 350. All steel parts are stainless steel. Connections consist of stainless steel and, where necessary, covered with a plastic cap.

Anchorage

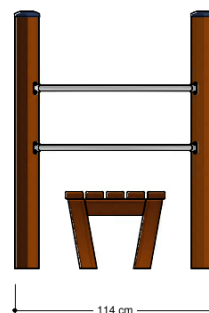

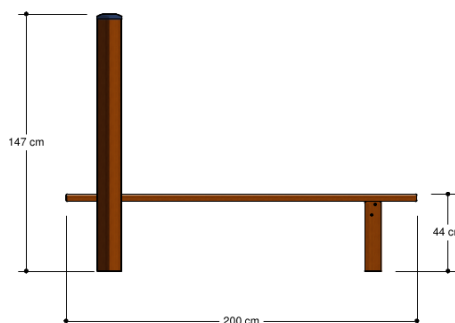

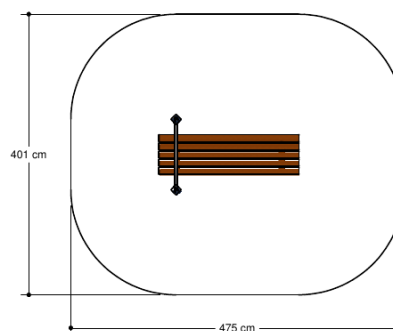

The posts go to a depth of 60 cm in the ground with at the bottom a stainless steel plate to increase the support.

Concrete is not required.

Comments

If the soil does not contribute to the stability it may be necessary to add concrete.

It is possible to deliver the tresspa, nets and powder coating work in other colors. Herefor we will add an additional charge.
